

ITCB CONTENT REVIEWER (Emergency Medicine & Medical Education Hybrid Opportunity!)

Volunteer role description: Thanks for your interest in contributing to the ITCB curriculum and undergraduate medical education. The goal of this role is to offer an opportunity to review a specific topic of the ITCB curriculum by synthesizing the latest literature of that topic. A summary document for each of the ITCB topics will be reviewed and updated annually, with appropriate references, to serve as a resource for ITCB facilitators and to update the ITCB knowledge content for learners. This summary document will then be translated into updated Powerpoint slides for your topic as well as related presenter notes.

Volunteer task summary:

1. Review literature on a select **ITCB topic** and develop a **reference list**
2. Update the **summary document** on selected **ITCB topic** (include above reference list)
3. Send the updated **summary document with references** to avseto@gmail.com for review and subsequent incorporation into Powerpoint slides and presenter notes

ITCB topics to choose from:

- Cardiac Arrest
- Acute Coronary Syndrome
- Anaphylaxis
- Tension Pneumothorax
- Upper GI Bleeding

To sign-up as a Content Reviewer, please email Anthony (avseto@gmail.com) with your preferred **ITCB topic**. Sign-ups are based on availability. Please submit the completed **summary document with references** to avseto@gmail.com by June 5th.
