## Meet Joanna

An inspired social entrepreneur

Studying sustainable tourism in Italy for a study abroad experience gave Joanna the idea to create an app based on digitally guided food tours.

Joanna combined her passions for urban studies, business and sustainability to customize a degree that helped her launch a business during her studies.

Using what she learned at UCalgary, she's helping locals engage in the slow food movement by becoming tourists in their own cities. The web app provides diners with digitally guided dining experiences, where participants walk to each restaurant.

The mentorship, hands-on skills and connections she made at UCalgary turned her vision into a viable business. It gave her the tools she needed to develop the Taste the City App, market her product and land her first angel investor.

Imagine where your UCalgary journey can take you.

### English language requirements

There are three ways to meet our English language entrance requirements:

#### 1. High school studies

Three years of study in an ELP-exempt country, or at an accredited high school (Canadian, American, British or CIS school) where English is the primary language of instruction. Your final English course must also be equivalent to Alberta's senior level (Grade 12) English.

#### 2. English language test scores

Present the minimum required score from an accepted test:

Duolingo—120
IELTS (academic)—6.5
TOEFL (internet-based)—86

*Nursing and education require higher scores.*

Learn more online, including what other tests are accepted.
