Mandatory Non-Instructional Fees (MNIF) Report
Student and Enrolment Services
Fiscal Year Ending March 31, 2024

Purpose:

This report outlines the goods and services that students receive for the mandatory non-instructional fees (MNIFs) that they are required to pay to complete an approved program or classroom instruction and that enhance the student experience.

The Tuition and Fees Regulation (TFR)[2] requires that institutions provide all necessary information to compare the revenue from mandatory non-instructional fees to the costs of the specific goods and services.

All MNIF reports for the University of Calgary use the same format and financial methodology including approaches to direct and indirect expenses.

Background:

Mandatory non-instructional fees are governed by the *Alberta Post Secondary Learning Act*[1]*,* the *Alberta Tuition and Fees Regulation*[2] and the *Alberta Tuition Framework*[3] as well as the terms of reference documents of the Board of Governors (BoG), Finance and Properties Committee (FPC), and Tuition and Fees Consultation Committee (TFCC).

Definitions:

Key definitions that have been used in preparation of this report can be found in Appendix A that follows this report.

- Goods and Services
- Direct/Indirect Expenses

You can find more detailed information about establishing tuition and fees on the [Tuition and Fees Reporting](#) website.

Goods and services listed in this report are provided five days a week during regular operating hours of the University of Calgary using a variety of modalities to ensure accessibility. Depending on student demand and needs, provision of events, programs and services may extend past normal operating hours of the university. These goods and services may vary annually depending on student demand and needs.
